

Careers

Hello Bowland High Pupils!

I realise that school life is very different at the moment and it is sometimes difficult to see the bigger picture or what the future holds. However, researching your career ideas and the opportunities available to you in the future is a really positive activity.

I am **Mrs Burns**, the Careers Co-ordinator at Bowland, please feel free to contact me for any careers information, advice or guidance at eburns@bowlandhigh.lancs.sch.uk it would be lovely to hear from you!

You can follow up to date career information on the Bowland High:

Things to Do

Before half term [START Profile](#) was launched to all years in school and details were sent out to parents and staff about this fabulous career resource. All pupils have had a virtual introduction to [START](#) during their PSHE classes, where they were guided around the website and shown how to use the modules and quizzes to build up their personal careers profile. More sessions will be delivered via PSHE lessons, but feel free to access lessons at any time!

My Week Of Work

Although, the traditional work experience week that Year 10's take part in is no longer possible, there are other work related opportunities!

Next week, a national initiative, **My Week of Work**, is being run nationwide. You will be able to gain some of the key employability skills and knowledge you have missed out on. Every day there are a range of 20 lessons available to you via Oak National Academy www.thenational.academy.

The lessons will support you to gain insight into the world of work through employer videos and resources. There will also be tasks set for you to complete each day to develop and showcase employability skills. Each session is a PowerPoint which has information, videos and tasks and is narrated all the way through. There is a virtual mentor who will pop up at various points to keep checking with you.

You can also register with [LearnLive](#) where you can listen but also ask questions from employers within different sectors.
