Tradition, Care and Challenge

Online Remote Provision

Guidance for pupils in the case of a full school or bubble closure

- Follow your daily timetable as best you can. Teachers will be delivering lessons following your normal school timetable. All work being set will be communicated via SMHW. Try to complete the work on the day it is set and certainly by the deadline provided. Your teacher may also organise to deliver a live lesson via Microsoft Teams. This will always be communicated to you via SMHW. Some curriculum areas may use online platforms for example Hegarty Maths.
- Any work not completed at home will be carried over to when you get back in school, so it is important that you keep up to date with your work.
- If you are struggling with your work, you should ask for help from your teacher. You can do this by sending them a message on SMHW or via email. Please remember that you are communicating with a member of staff and not texting your friend. Please ensure all comments made are work related and appropriate.
- If you are submitting work online and have taken photos of your work, try to take them from above so that they are not slanted. This makes it easier for your teacher to read all of your work.
- When your teacher makes a comment about your work, sometimes this will need a response. For example, they may ask you a question, which you need to answer. If the message does not need a reply, you do not have to.
- When completing your work remember the expectations your teacher would have for you in class regarding the presentation and detail of work.
- If you are unwell, you are not expected to complete work until you feel well enough.

Guidance for pupils who are self-isolating (not through a full school or bubble closure)

- The guidance for pupils given above is the same except that your teacher will still be physically teaching other pupils in your class as per the normal timetable. This means that work may not be set at the exact same time that you would normally have a lesson in that subject, but will normally be set on the same day according to your timetable. This might include online platforms for example Hegarty Maths.
